

**Our Partners:**Open-die ForgingsSeamless Rolled RingsClosed-die Forgings

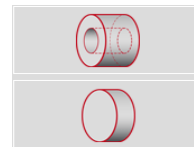

With our partner companies we are able to support you with material grades acc. to EN and DIN, ASTM, ASME, British Standard, as well as acc. to customer specification and other international standards. The production process is in accordance with DIN EN ISO9001. The mechanical testing and the non-destructive testing are proved by quality certificate acc. to EN 10204-3.1/3.2

**Shafts, Flange Shafts**

- Flange diameter max. 1.800 mm
- Length max. 15.000 mm
- Weight up to 35 t

**Discs**

- Diameter max. 2.500 mm
- Height max. 1.200 mm
- Weight max. 35 t

**Seamless Rolled Rings & Special Flanges**

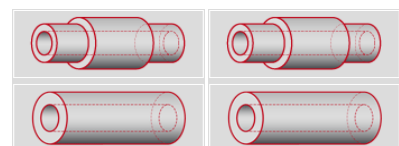

- Outer Diameter max. 8.000 mm
- Height max. 1.060 mm
- Wall thickness max. 800 mm
- Weight max. 45 t

**Square Blocks**

- Length max. 15.000 mm
- Width max. 1.800 mm
- Height max. 1.800 mm
- Weight max. 35 t

**Forged Pipes and Cylinders**

- Outer-Ø max. 2.400 mm
- Length max 6.000 mm
- Weight max. 30 t

**Closed-die Forgings**

- Weight min. 0,5 kg
- Weight max. 250 kg
